**For Immediate Release:**

## **BTC Earns ISO 9001:2008 Certification**

**WAKE FOREST, NC** – January 13, 2011 – BTC Electronic Components, Inc., suppliers of high reliability connectors and interconnect accessories, recently completed an annual ISO audit and recertification. With this audit, BTC upgraded to the newest ISO Standard 9001:2008 for our quality management system. BTC has been an ISO certified company since 2005.

The scope of registration covers “The distribution of electronic components. The assembly of electrical/electronic connectors to customer, industry and/or military specifications”. The audit was completed with no findings.

BTC is also certified to AS9100 Revision B and is listed on The International Aerospace Quality Group’s Online Aerospace Supplier Information System, OASIS. In the most recent AS9100 audit, BTC received a score of 100%. BTC’s assembly operations are certified to MIL-STD-790.

**BTC Electronic Components, Inc.** is an ISO9001:2008, AS9100, and MIL-STD-790 certified value-added assembly supplier of connectors, connector accessories, wire management and heat shrink products to the military, aerospace, industrial, telecommunications and process control markets. BTC can provide custom assembly, modification of standard components, customized packaging solutions, technical support to engineers, application specific design as well as standard value-added services including: just-in-time delivery, bar coding and EDI.
